Remarks

Applicant has amended the title to include "And Apparatus" since by this amendment applicant has added new claims 5 to 9 to an apparatus. Applicant has amended the Abstract to reduce the word count to less than 150 words.

Applicant has added new claims 5-9 to an apparatus. New independent claim 5 is the apparatus equivalent of method claim 1 except for the visualization of the results which are the subject of new claim 6. New claims 7-9 are the apparatus equivalent of method claims 2-4. The Examiner has said he will allow claims 1-4.

The new claims 5-9 do not add new matter as the application as filed shows the apparatus that performs the method of the invention in Fig. 5 as filed. The processor is shown as PR in that figure. No further fee is required for new claims 5-9 as with the entry of this amendment the application will have a total of nine (9) claims of which two (2) are independent.

This Amendment is submitted by facsimile.

*****Signature and Certificate of Facsimile Transmission Appear On
